

# LIABILITY ADVISORY

\_\_\_\_\_ High School does not sanction summer athletic leagues or other forms of "summer-time" athletic competition. Students and parents should be aware that summer athletic competition is not sponsored by \_\_\_\_\_ High School although teams may be composed exclusively of participants who attend \_\_\_\_\_ High School, and the school's coach, acting as a private citizen, is coaching the summer team. In view of the possibility that liability might be incurred in the event of injury, we are sending this notice to inform parents that \_\_\_\_\_ High School, the \_\_\_\_\_ League, and the NCS are not responsible for the supervision, transportation, or conduct of the summer athletic competition activities.

Individuals who also coach for \_\_\_\_\_ High School during the school year must understand the potential liability that they may be assuming when they act as private individuals in transporting and/or coaching summer athletic teams. \_\_\_\_\_ High School requires that each school coach sign a statement in which the coach acknowledges that he/she understands the potential liability he/she may be assuming when coaching outside of the sponsorship of the school. Furthermore, that as representatives of \_\_\_\_\_ High School, the coaches will not influence students to participate in summer programs as a condition or prerequisite for participation in the regular school-year athletic programs.

---

## NOTICE TO PARENTS/GUARDIANS

### SUMMER ATHLETIC TEAMS

\_\_\_\_\_ High School does not sponsor any summer athletic teams, nor do such teams have sanction for these activities from the California Interscholastic Federation, North Coast Section, or the \_\_\_\_\_ League.

Participation on summer athletic teams is a voluntary and private activity on the part of \_\_\_\_\_ High School students, and is not a requirement for participation on the school's athletic teams during the regular school year. \_\_\_\_\_ High School is not responsible for the supervision, transportation, or conduct of these summer athletic competition activities. The school is not responsible for injuries that might occur while participating on summer athletic teams.

A regular \_\_\_\_\_ High School employee may coach a summer athletic team, however, such coach is not employed by \_\_\_\_\_ High School in the capacity of a summer athletic team coach. The coach is serving either as a private individual or employee of an agency other than \_\_\_\_\_ High School.
